Road 224 at Deer Creek has a history of washing out during heavy rains and flooding, and most recently, washed out during the heavy rain events of December 2010. The County has secured federal funding to design and construct a new bridge at this location. The new structure will prove to be a long term solution to this ongoing problem. This public meeting will serve to inform the public and local residents of the project, including the schedule for completion of the new bridge and re-opening of the road to through traffic.
